

Why Mind Mentorz?

Established with a mission to inculcate life skills in kids through fun filled activities and other meaningful ways to engage them on their free time

THE PLACE TO BE AFTER SCHOOL

1 State of the Art infrastructure...

Mind Mentorz utilizes the vast canvas of technology-backed online & in-class learning to reach out to the community of students, bringing them the flexibility and diversity of learning, enjoying and mastering the games.

2 Highly Qualified Coaches...

Our mentors are FIDE-rated Chess Coaches with Computer Programming and eCommerce backgrounds with several years of teaching experience with children of all ages.

3 Fun Oriented Learning...

We offer useful resources for children to spend their time on practicing whenever free. We also pave way for your child to indulge in meaningful and intellectual conversations with peers that truly reflect in their communication skills, thought processes and ultimately academics.

4 Structured Progress Analysis...

We assess your kids bi-monthly and involve you completely in your kids' progress and personality development.

5 Online Coaching Facilities...

We offer online coaching for outside India individuals who want to improve their Chess

6 Summer Camps...

In this duration, we orient them to Chess, Coding, Robotics and Rubik's and expose them to intensive training so that they can pick up the fundamentals and essential skills in the shortest time possible

Scholastic Chess

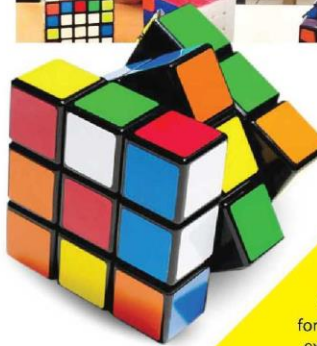

Chess is more than just a game for weekend recreation. Through this program, we foster an environment for kids to get better at Chess and in turn acquire Life Skills like strategic thinking, consequences analysis, foreseeing and forecasting, backup plan formulation techniques, enhanced memory power, note taking skills, having clear cut visions and more.

Rubik's Cube

When your kid is engaged with a Rubik's Cube tons of calculations and strategies are going on inside their minds and their hands coordinate in tandem to the brain's orders.

As they practice, Rubik's Cube paves the way for enhanced decision making skills, logical thinking, hand-eye coordination, strategic thinking and more. In this program, we also train your kids on the Cube's Variants for more sophisticated thought processes and approach

Scratch Coding

Scratch Coding gives your kid the ability to develop interactive games, animations and stories by themselves and inculcates in them creativity and logical reasoning. This is an inevitable skill that will be highly in demand in the future.

To know more about Scratch Coding please refer to website <https://www.scratch.mit.edu>.

Robotics

Tomorrow's world is of Robots and Artificial Intelligence (AI). At Mind Mentorz, we make use of Lego Mindstorms which is an extensive Robotic construction that allows your kids to build, develop, program and command their LEGO constructs. Robotics is not just a cool hobby but an investment for your child's future.

To know more about Lego Mindstorms please refer to website <https://www.lego.com/mindstorms>

is Powered by

Our Scholastic Chess approach for kids is primarily executed through chesskid.com - Gold Membership Program. Being one of the safest portals for kids, chesskid.com is our tool to create an ecosystem for kids to get better at games and in life together. Through this portal, we keep a track of your kids games and progresses, have comprehensive insights on where your kid has to improve, allowing your kid to know the real-time rating and where he or she stands on a global scale.
